

■ **Model:** ACT- II

■ **Dimensions:** 730 × 430 × 880 (unit: mm)

■ **Features**

Corrosion-resistant

Resistant to various acids (H₂SO₄, HCl, HNO₃, HF, HClO₄, aqua regia etc.) Resistant to alkalis and various corrosive gases.

Flexible use

Removable and easy to install.

Universal casters

Rotate 360°.

Reasonable design

Metal frame, anti-corrosion coating. Install an acid guide groove to prevent liquid spillage from contacting experimental personnel and ensure safety.

PVC base

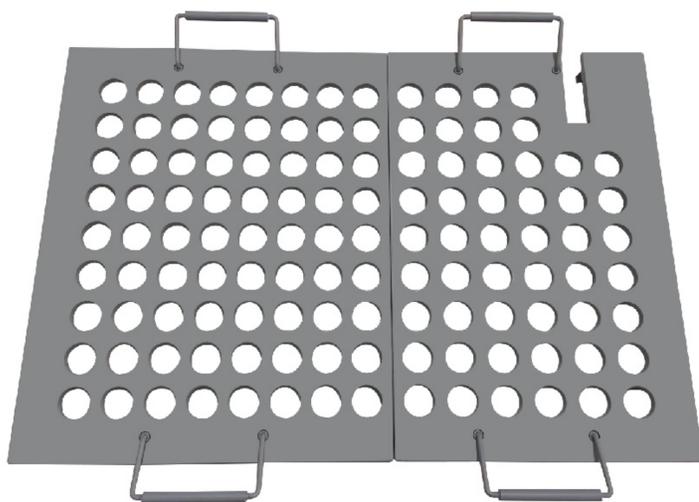

Corrosion-resistant and easy to clean.

Customizable

It can be used with customized orifice plates, with adjustable aperture and depth as needed. Safe and anti-tipping protection.

■ **Product Features**

Corrosion resistance

Resistant to various acids (H₂SO₄, HCl, HNO₃, HF, HClO₄, aqua regia etc.) Resistant to alkalis and various corrosive gases.

Easy to use

The entire product consists of two small parts (new version). Compatible with SD46-1 and TD465.

High temperature resistance

Peak temperature 200°C
